

HOW DALLAS-FORT WORTH AREA SCHOOLS RATE

Texas Education Agency

Monday, August 15, 2022

The Texas Education Agency has rated all school districts and their individual campuses based on two categories: "Met Standard" or "Not Rated"

HOW THE RATINGS ARE DETERMINED

MET STANDARD: District or campus met performance index targets on all indexes for which they have performance data in 2021. Schools under this category can be recognized with three additional "distinction" designations:

1) OVERALL RATING: Distinction designations are awarded for achievement in several areas and are based on performance relative to a group of campuses of similar type, size, grade span, and student demographics.

2) STUDENT ACHIEVEMENT: Students are evaluated in performance across all subjects for all students, on both general and alternate assessments, college, career, and military readiness (CCMR) indicators, and graduation rates.

3) SCHOOL ACADEMIC GROWTH: Measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

NOT RATED: Districts or campuses that did not meet one or more performance index targets. This year Senate Bill 1365 made changes related to the academic accountability system permitting the commissioner to assign a "Not Rated" designation to a district or campus under certain conditions, including if the district or campus is subject to a disaster declaration and would have received a D or F in 2021 or had insufficient number of students enrolled.

HOW AREA DISTRICTS FARED

For a complete list of all school campuses, please visit: <https://rptsr1.tea.texas.gov/perfreport/account/index.html>

Performance change from 2019 to 2021
